

Public Country by Country Report (on income tax information)

Introduction

Boeing operates in the aerospace and defense sector, a highly concentrated and competitive industry in which a small number of companies compete for long-cycle, high-value contracts. Country-level financial and operational information could provide competitors with meaningful insight into Boeing's pricing, profitability, cost structure, capacity, and strategic positioning.

Given differences in disclosure timing for industry participants, immediate disclosure would create an information asymmetry and place Boeing at a competitive disadvantage. Furthermore, the Boeing Company has not provided global group entity-level financial information.

Accordingly, Boeing has applied the safeguard provision under EU Directive 2021/2101 and the applicable Spanish Public CbCR requirements, as regulated by Ley 22/2015, de 20 de julio, de Auditoría de Cuentas, Disposición Adicional 11ª. Boeing is deferring disclosure of all reportable information other than employee headcount. The omitted information will be published within the timeframe required under the applicable rules. This deferral does not affect Boeing's reporting to tax authorities or its broader commitment to tax compliance, corporate governance, and transparency.

Section 1. General information

Name of ultimate parent of group / of standalone company	THE BOEING COMPANY
Country of registered office of ultimate parent undertaking	The United States of America
